

Spring 2018

AN ONLINE COMPETITION For High School Students

The Florida Finance Challenge (FFC) is an opportunity for high school students to demonstrate their knowledge of personal finance by competing with other students across the state in multiple-choice, timed online examinations. Research has shown that student competitions increase participation, promote attendance, and help achieve higher grades and test scores. For teachers, the FFC provides a useful tool to help encourage students and generate excitement for classroom materials.

The preliminary round of the FCC will be online. In this round, each team of students will complete online exams that cover topics like:

- *Earning Income & Protecting and Insuring*
- *Using Credit & Buying Goods and Services*
- *Saving & Financial Investing*

The 1st place team in the state has the option to represent Florida during the National Finance Challenge in May 2018 at the Federal Reserve Bank in Kansas City, MO.

No formal courses in Personal Finance are required. Any team of students interested in Personal Finance is encouraged to compete, but must have an adult coach. Schools may enter multiple teams in the online competition.
